AMAZING NEIGHBOURS!

We have so many amazing people in this park!

When neighbours help out with so many things without even being asked that shows what a wonderful family we have grown here at Green Acres.

The bottle drive to raise money for Kids With Cancer that young Ben put on was such a great success because of the Green Acres Family. The trailer was so close to being full!!! What a great donation. Green Acres has matched this donation that you have given.

What a great view from Green Acres

SUMMER OF 2021

This summer has been amazing. It is so great to make friends and family in the park and enjoy them all summer. It was still nice to see kids at the beach even with the pool open! Halloween will be such a success this weekend! It was great to see so many people get involved and decorate their sites.

SPEED LIMIT

The speed limit in the park is 15 km/hr. Please do not go over this speed. Even when you are on your electric bike, scooter or boards you have to keep to the speed limit!! There are kids in the park and they are also on the road so please share the road with everyone and everything.

WISH LIST

Please put your name on the wish list if you are wanting to move to a different site. You can add your name to the list until Sept 2 and then we will start working on moving you around. We try to move as many as possible in the fall rather than the spring as the ground is usually drier and therefore easier to move without wrecking the grass and site. The Wish List restarts every January so please be sure to put your name back on the list in January if you are not moved this fall.

FALL DEPOSIT

The fall deposit of \$1575.00 is due by September 1st. Please remember to call in or stop in at the office to pay this on time! If you are not renewing this fall please let the office know as soon as possible. If you are not renewing your trailer must be out of the park by September 15th.

Life is better at the lake.

*Time wasted at the lake is time
well spent.*

CLOSING DOWN YOUR TRAILER AND SITE!

Weather permitting the power will be shut off September 30th. The water will be shut off after September 15th. We will not have a date till closer to the time.

Here are some recommendations when closing your trailer for the year.

- If you have a new tree on your site we recommend that it is watered lots before you leave so the root ball is encased in ice for the winter.
- Secure your shed!! It gets windy in the park over the winter and especially in the spring. Sheds collapse and the doors open.
- Please detach your sewer hose from the ground so we can access lines in the spring.
- Be sure to lift your jacks so your trailer can move with the ground. Lock your deadbolt and door handle for safety and so when we get frost heaves through the winter there is less chance of your door opening.
- Make sure your site is clean and tidy before leaving the park for the winter. All bikes, lawn furniture etc. must be stored.

Here are some ideas for mouse proofing.

- Don't leave any food in your trailer. Vacuum out furnace vents. Compartments, beds and couches
- Spray foam insulation where pipe fittings and plumbing liens enter your trailer
- Clean out all food stuffs from nooks and crannies
- Lay down poison in cupboards and set mouse traps

**Have a great winter from all
of us to all of you!!**
